THE NORTH COUNTRY FUNDS

NOTES TO FINANCIAL STATEMENTS (Unaudited)

May 31, 2023

NOTE 1. ORGANIZATION

The North Country Funds (the “Trust”) was organized as a Massachusetts business trust on June 1, 2000, and registered under the Investment Company Act of 1940 (the “1940 Act”) as an open-end, diversified, management investment company on September 11, 2000. The Trust currently offers one series: the North Country Large Cap Equity Fund (the “Fund”). The Fund’s principal investment objective is to provide investors with long-term capital appreciation. The Fund commenced operations on March 1, 2001.

The Fund was initially organized on March 26, 1984 under New York law as a Collective Investment Trust sponsored by Glens Falls National Bank & Trust Company. Prior to its conversion to a regulated investment company (mutual fund), investor participation was limited to qualified employee benefit plans.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies followed by the Trust in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements in conformity with these generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from these estimates. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 Financial Services - Investment Companies.

Security Valuation – Securities which are traded on a national securities exchange are valued at the last quoted sale price. NASDAQ traded securities are valued using the NASDAQ official closing price (“NOCP”). Investments for which no sales are reported are valued at the mean between the current bid and ask prices on the day of valuation. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in level 1 of the fair value hierarchy described below. When an equity security is valued by the independent pricing service using factors other than market quotations or the market is considered inactive, they will be categorized in level 2.

Any securities or other assets for which market quotations are not readily available, or securities for which the last bid price does not accurately reflect the current value, are valued at fair value pursuant to the Fund’s fair value pricing policies and procedures, as approved by the Board (the “Valuation Policy”). The Board has designated North Country Investment Advisers, Inc., the Fund’s investment adviser (the “Adviser”), as the “Valuation Designee” pursuant to Rule 2a-5 under the 1940 Act to make fair value determinations for all of the Fund’s investments for which market quotations are not readily available (or are deemed unreliable). The Board will oversee the Adviser’s fair value determinations and the Adviser’s performance as Valuation Designee. Pursuant to the Valuation Policy, the Valuation Designee will take into account all relevant factors and circumstances in determining the fair value of a security, which may include: (i) the nature and pricing history (if any) of the security; (ii) whether any dealer quotations for the security are available; (iii) possible valuation methodologies that could be used to determine the fair value of the security; (iv) the recommendation of the portfolio manager of the Fund with respect to the valuation of the security; (v) whether the same or similar securities are held by other funds managed by the Adviser or other funds and the method used to price the security in those funds; (vi) the extent to which the fair value to be determined for the security will result from the availability and use of data, reports or formulae produced by third parties independent

of the Adviser; (vii) the liquidity or illiquidity of the market for the security; (viii) the size of the Fund's holdings; (ix) the existence of any extraordinary event relating to the security; (x) changes in the market environment; and (xi) any other matters considered relevant by the Valuation Designee. In the absence of readily available market quotations, or other observable inputs, securities valued at fair value pursuant to the Procedures would be categorized as level 3.

Money market funds are valued at their net asset value of \$1.00 per share and are categorized as level 1. Securities with maturities of 60 days or less may be valued at amortized cost, which approximates fair value and would be categorized as level 2. The ability of issuers of debt securities held by the Fund to meet its obligations may be affected by economic or political developments in a specific country or region.

The Fund utilizes various methods to measure the fair value of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, including the Valuation Designee's assumptions used in determining the fair value of priced instruments.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

May 31, 2023

The following is a summary of inputs used as of May 31, 2023, in valuing the Fund's assets carried at fair value.

North Country Large Cap Equity Fund:

Assets	Level 1	Level 2	Level 3*	Total
Common Stock**	\$ 123,052,851	\$ —	\$ —	\$ 123,052,851
Money Market Fund	5,414,110	—	—	5,414,110
Total	\$ 128,466,961	\$ —	\$ —	\$ 128,466,961

* The Fund did not hold any Level 3 investments during the period.

** See Schedule of Investments for industry classifications.

Federal Income Taxes – The Fund makes no provision for federal income or excise tax. The Fund intends to qualify each year as regulated investment companies (“RICs”) under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of its taxable income. The Fund also intends to distribute sufficient net investment income and net capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense.

Management has analyzed the Fund's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years November 30, 2020, to November 30, 2022, or expected to be taken in the Fund's November 30, 2023, year-end tax returns. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the statements of operations. The Fund identifies its major tax jurisdictions as U.S. Federal and New York State.

Dividends and Distributions – The Fund will pay dividends from net investment income, if any, on an annual basis. The Fund will declare and pay distributions from net realized capital gains, if any, annually. Income and capital gain distributions to shareholders are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles.

Security Transactions – Securities transactions are recorded no later than the first business day after the trade date, except for reporting purposes when trade date is used. Realized gains and losses on sales of securities are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective securities using the effective yield method. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Indemnification – The Trust indemnifies its officers and trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss due to these warranties and indemnities to be remote.

Cash and cash equivalents – Cash and cash equivalents are held with a financial institution. The assets of the Fund may be placed in deposit accounts at U.S. banks and such deposits generally exceed Federal Deposit Insurance Corporation (“FDIC”) insurance limits. The FDIC insures deposit accounts up to \$250,000 for each accountholder. The counterparty is generally a single bank rather than a group of financial institutions; thus there may be a greater counterparty credit risk. The Fund places deposits only with those counterparties which are believed to be creditworthy and there has been no history of loss.

NOTE 3. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES

The Trust has entered into an investment advisory agreement (the “Advisory Agreement”) with North Country Investment Advisers, Inc. (the “Adviser”). Pursuant to the Advisory Agreement, the Adviser is responsible for formulating the Trust’s investment programs, making day-to-day investment decisions and engaging in portfolio transactions, subject to the authority of the Board of Trustees. Under the terms of the agreement, the Fund pays a fee, calculated daily and paid monthly, at an annual rate of 0.75% of the average daily net assets of the Fund. For the six months ended May 31, 2023, the Adviser received advisory fees of \$474,472.

The Trust has entered into an Underwriting Agreement with Northern Lights Distributors, LLC (“the Distributor”) to serve as the principal underwriter for the Fund and distributor for the Fund’s shares.

In addition, certain affiliates of the Distributor provide services to the Fund as follows:

Ultimus Fund Solutions, LLC (“UFS”) – UFS, an affiliate of the Distributor, provides administration, fund accounting, and transfer agent services to the Trust. Pursuant to separate servicing agreements with UFS, the Fund pays UFS customary fees for providing administration, fund accounting, and transfer agency services to the Fund. Certain officers of the Trust are also officers of UFS, and are not paid any fees directly by the Fund for serving in such capacities.

Northern Lights Compliance Services, LLC (“NLCS”) – NLCS, an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from the Fund.

BluGiant, LLC (“BluGiant”), an affiliate of UFS and the Distributor, provides EDGAR conversion and filing services as well as print management services for the Fund on an ad-hoc basis. For the provision of these services, BluGiant receives customary fees from the Fund.

Certain officers and/or trustees of the Adviser are also officers/trustees of the Trust.

NOTE 4. CAPITAL SHARE TRANSACTIONS

At May 31, 2023, there were an unlimited number of shares authorized with no par value.

Transactions in capital shares were as follows:

	For the Six Months Ended May 31, 2023		For the Year Ended November 30, 2022	
	Shares	Amount	Shares	Amount
Shares sold	194,856	\$ 3,476,406	338,914	\$ 7,300,809
Shares issued for reinvestment of dividends	772,470	13,688,179	521,834	12,764,060
Shares redeemed	(469,367)	(8,493,874)	(1,110,409)	(24,570,892)
Net increase (decrease)	497,959	\$ 8,670,711	(249,661)	\$ (4,506,023)

NOTE 5. INVESTMENTS

The cost of purchases and proceeds from the sales of securities, other than short-term investments, for the six months ended May 31, 2023, amounted to \$2,672,965 and \$10,088,698, respectively.

NOTE 6. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION – TAX BASIS

The identified cost of investments in securities owned by the Fund for federal income tax purposes, and its gross unrealized appreciation and depreciation at May 31, 2023, were as follows:

<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
\$ 57,829,148	\$ 71,880,162	\$ (1,242,349)	\$ 70,637,813

NOTE 7. TAX INFORMATION

The tax character of distributions paid during the fiscal year ended November 30, 2022, and fiscal year ended November 30, 2021, was as follows:

	<u>Fiscal Year Ended November 30, 2022</u>	<u>Fiscal Year Ended November 30, 2021</u>
Ordinary Income	\$ 594,998	\$ 611,331
Long-Term Capital Gain	13,084,112	15,041,185
Return of Capital	—	—
	<u>\$ 13,679,100</u>	<u>\$ 15,652,516</u>

As of November 30, 2022, the components of distributable earnings/ (deficit) on a tax basis were as follows:

<u>Undistributed Ordinary Income</u>	<u>Undistributed Long-Term Capital Gains</u>	<u>Post October Loss and Late Year Loss</u>	<u>Capital Loss Carry Forwards</u>	<u>Other Book/Tax Differences</u>	<u>Unrealized Appreciation/ (Depreciation)</u>	<u>Total Distributable Earnings/ (Accumulated Deficits)</u>
\$ 700,353	\$ 13,589,574	\$ —	\$ —	\$ —	\$ 73,386,369	\$ 87,676,296

The difference between book basis and tax basis unrealized appreciation/(depreciation) from investments is primarily attributable to the adjustments for C-Corporation return of capital distributions.

NOTE 8. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a Fund creates presumption of control of the Fund, under Section 2(a) 9 of the 1940 Act. As of May 31 2023, SEI Private Trust Company, an account holding shares for the benefit of others in nominee name, held approximately 87% of the voting securities of the Fund.

NOTE 9. SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there are no events requiring additional adjustment or disclosure in the financial statements.

THE NORTH COUNTRY FUNDS

DISCLOSURE OF FUND EXPENSES (Unaudited)

As a shareholder of the Fund, you incur ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Please note, the expenses shown in the tables are meant to highlight ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), or contingent deferred sales charges (CDSCs) on redemptions.

This example is based on an investment of \$1,000 invested at December 1, 2022 and held until May 31, 2023.

Actual Expenses: The “Actual” section of the table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the column under the heading entitled “Expenses Paid During the Period” to estimate the expenses you paid on your account during the period.

Hypothetical Examples for Comparison Purposes: The “Hypothetical” section of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund with other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs which may be applicable to your account. Therefore, the “Hypothetical” example is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs would have been higher.

	Beginning Account Value (12/1/22)	Ending Account Value (5/31/23)	Expense Ratio (Annualized)	Expenses Paid During the Period* (12/1/22-5/31/23)
Large Cap Equity Fund				
Actual	\$1,000.00	\$1,019.10	1.06%	\$5.34
Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.65	1.06%	\$5.34

* Expenses are equal to the Fund’s annualized expense ratio multiplied by the average account value over the period, multiplied by 182 days divided by 365 days.
