How did the Fund perform during the reporting period?

The performance of the Fund over the last year was driven by a good environment for credit and a choppy rate environment. The Fund allocated to shorter duration credit to take advantage of the sanguine risk environment. The market continues to be volatile since the 2020 COVID crisis and we expect macroeconomic distortions to continue in near future. The Fund will aim to take advantage of these opportunities.

During the fiscal year ended June 30, 2024, the performance of the Fund did not deviate from managers expectations. The Fund is designed to perform in all economic environments.
