*Supplement dated November 10, 2021 to
the Prospectus dated September 1, 2021*

The Board of Trustees (the “Board”) of AdvisorOne Funds (the “Trust”) has determined that it is in the best interests of shareholders to close and liquidate the Trust and each of its series, CLS Global Diversified Equity Fund, CLS Growth and Income Fund, CLS Flexible Income Fund, CLS Global Aggressive Equity Fund and CLS Shelter Fund (each a “Fund” and collectively, the “Funds”), following a recommendation by the Funds’ investment adviser, Brinker Capital Investments, LLC (the “Adviser”). The Adviser’s recommendation was based on an evaluation of its mutual fund offerings and the evolving needs of investors. The Board has determined to close the Funds and redeem all outstanding shares on or about January 24, 2022 (the “Redemption Date”).

Effective December 27, 2021, the Funds will not accept any new investments, and will no longer pursue their respective stated investment objectives. Any required distributions of income and capital gains will be distributed as soon as practicable to shareholders and reinvested in additional shares, unless you have previously requested payment in cash.

Prior to or on the Redemption Date, you may redeem your shares, including reinvested distributions, in accordance with the “How to Redeem Shares” section in the Prospectus. Unless your investment in a Fund is through a tax-deferred retirement account, a redemption is subject to tax on any taxable gains. Please refer to the “Tax Status, Dividends and Distributions” section in the Prospectus for general information. You may wish to consult your tax advisor about your particular situation.

ANY SHAREHOLDERS WHO HAVE NOT REDEEMED THEIR SHARES OF THE FUNDS PRIOR TO THE REDEMPTION DATE WILL HAVE THEIR SHARES AUTOMATICALLY REDEEMED AS OF THAT DATE, AND PROCEEDS WILL BE SENT TO THE ADDRESS OF RECORD. IF YOU HAVE QUESTIONS OR NEED ASSISTANCE, PLEASE CONTACT YOUR FINANCIAL ADVISOR DIRECTLY OR THE FUNDS AT (866) 811-0225.

This Supplement and the Prospectus dated September 1, 2021, provide relevant information for all shareholders and should be retained for future reference. The Prospectus has been filed with the Securities and Exchange Commission, is incorporated by reference and can be obtained without charge by calling the Funds at (866) 811-0225.

AdvisorOne Funds

Summary Prospectus September 1, 2021

Before you invest, you may want to review the Fund's Prospectus, which contains more information about the Fund and its risks. The Fund's Prospectus and Statement of Additional Information, both dated September 1, 2021, are incorporated by reference into this Summary Prospectus. You can obtain these documents and other information about the Fund online at www.advisoronefunds.com/prospectuses. You can also obtain these documents at no cost by completing a document request form on our web-site, www.advisoronefunds.com or by calling 1-866-811-0225 or by sending an email request to orderadvisorone@ultimusfundolutions.com.

Investment Objective:

The investment objective is long-term growth.

Fees and Expenses of the Fund:

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.

Shareholder Fees (fees paid directly from your investment)	Class T
Maximum Deferred Sales Charge (Load) (as a % of the lower of original purchase price or net asset value of shares redeemed)	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.75%
Distribution and/or Service (12b-1) Fees	None
Other Expenses	<u>0.34%</u>
Shareholder Servicing Expenses	0.10%
Remaining Other Expenses	0.24%
Acquired Fund Fees and Expenses (Underlying Funds) ⁽¹⁾	<u>0.47%</u>
Total Annual Fund Operating Expenses	<u>1.56%</u>

(1) This number represents the combined total fees and operating expenses of the Underlying Funds owned by the Fund and is not a direct expense incurred by the Fund or deducted from Fund assets. Since this number does not represent a direct operating expense of the Fund, the operating expenses set forth in the Fund's financial highlights do not include this figure.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then hold or redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Year	Class T
1	\$159
3	\$493
5	\$850
10	\$1,856

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 16% of the average value of the portfolio.

Principal Investment Strategies of the Fund:

The Fund invests primarily in exchange traded funds ("ETFs"), other open-end mutual funds, and closed-end funds. This group of investments is referred to as "Underlying Funds." The Fund's investment adviser, Brinker Capital Investments, LLC ("Brinker"), seeks to achieve the Fund's investment objective by using the following investment strategies:

- Investing in Underlying Funds that seek capital growth by investing in common stock or securities convertible into or exchangeable for common stock (such as convertible preferred stock, convertible debentures or warrants), including the stock of foreign issuers. The Underlying Funds used by the Fund in its allocations consist primarily of ETFs. The Underlying Funds are selected based on their security selection methodology, asset class trend, asset class fundamentals, diversification impact, cost and liquidity. These investments may include smaller and medium capitalization companies.
- Investing, under normal market conditions, at least 80% of the Fund's assets (defined as net assets plus the amount of any borrowing for investment purposes) in equity securities. This is achieved by investing directly in equities or indirectly by investing in Underlying Funds. Any investment in derivatives will be valued on a mark-to-market basis to the extent that they count towards this policy.
- Investing, under normal market conditions, in at least three different countries, and approximately 40% of the Fund's assets (defined as net assets plus the amount of any borrowing for investment purposes) outside the U.S.
- Using long and covered call options and long futures on equity, fixed income, and commodity ETFs to obtain additional exposure to the market when Brinker believes that a particular asset class, sector, region or country offers superior opportunities for return relative to the risk.

When the Fund purchases call options, the Fund has the right to buy a particular security, including, for example, an index-based ETF, at a predetermined price (exercise price) during the life of the option. When the Fund sells (or "writes") a covered call option, the purchases of the option has the right to buy a particular security held by the Fund, including, for example, an index-based ETF, at a predetermined price (exercise price) during the life of the option.

When the Fund enters into a long futures contract, the Fund agrees to buy a standardized quantity of an asset or security for an agreed upon price with payment and delivery occurring at a specified future date (the delivery date). Unlike an options contract, the Fund must purchase the asset or security on the delivery date unless the Fund terminates the contract prior to such date.

Brinker actively manages the Fund's investments by increasing or decreasing the Fund's investment in particular asset classes, sectors, regions and countries, or in a particular security, based on its assessment of the opportunities for return relative to the risk using fundamental and technical analysis. Because of the varying levels of risk among equity and bond asset classes, the percent allocated to equities and bonds will vary depending on which asset classes are selected for the portfolio. While the Fund primarily invests in equity securities, because the Fund may also invest the balance of its portfolio across other asset classes and is invested to maintain a relatively consistent level of risk, the Fund's risk budget benchmark is included to provide a better performance comparison than a broad-based, single asset class benchmark. The Fund's risk budget benchmark is presented to reflect 110% of the risk of a diversified equity portfolio. The diversified equity portfolio is defined as 60% of the Morningstar U.S. Market Index and 40% of the Morningstar Global Market ex US Lg-Mid Index. The 110% weighting against this benchmark is consistent with the risk level of the Fund, meaning that the Fund will be invested to maintain a higher overall risk tolerance within its portfolio than the diversified equity portfolio. The indexes underlying the diversified equity portfolio are utilized to reflect the Fund's broad exposure to the global equity market. The Morningstar U.S. Market Index is an index that measures the performance of U.S. securities and targets 97% market capitalization coverage of the investable universe. It is a diversified broad market index. The Morningstar Global ex U.S. Large-Mid Index is an index that measures the performance of Global Markets (ex-U.S.) equity markets targeting the top 90% of stocks by market capitalization.

For purposes of the Fund's 80% and 40% policies discussed above, the Fund will "look through" investments in Underlying Funds and will include such investments in their respective percentage totals where the identity of the underlying portfolio securities can be reasonably determined. For purposes of the Fund's 40% policy, to determine whether an issuer is a non-U.S. issuer, (i) Brinker utilizes Morningstar's regional classification with respect to Underlying Funds, and (ii) country assignments for individual positions within Underlying Funds are assigned by Morningstar based on the primary exchange where each stock is traded.

Principal Risks of the Fund:

Many factors affect the Fund's performance. The Fund's share price changes daily based on changes in market conditions in response to economic, political and financial developments. The direction and extent of those price changes will be affected by the financial condition, industry and economic sector, and geographic location of the securities in which the Fund and the Underlying Funds invest. The Fund is not federally insured or guaranteed by any government agency. **YOU MAY LOSE MONEY BY INVESTING IN THE FUND.**

Derivatives Risk: The Fund's investment in derivatives subjects the Fund to the risk that the Fund will incur a loss greater than the Fund's investment in, or will experience greater share price volatility as a result of investing in, a derivative contract. Derivatives may include, among other things, options and futures, and may be used by the Fund in order to hedge portfolio risks or to attempt to increase yield.

- *Call Option Risk:* There are risks associated with the sale and purchase of call options. As the seller (writer) of a call option, the Fund will tend to lose money if the value of the reference index or security rises above the strike price. As the buyer of a call option, the Fund risks losing the entire premium invested in the option if the Fund does not exercise the option.

- **Futures Risk:** The Fund's use of futures involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) leverage risk (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the futures contract may not correlate perfectly with the underlying index.

Foreign Securities Risk: Foreign securities may be riskier than U.S. investments because of factors such as unstable international political and economic conditions, currency fluctuations, foreign controls on investment and currency exchange, withholding taxes, a lack of adequate company information, less liquid and more volatile markets, and a lack of governmental regulation. Foreign companies generally are not subject to accounting, auditing, and financial reporting standards comparable to those applicable to U.S. companies. Transaction costs and costs associated with custody services are generally higher for foreign securities than they are for U.S. securities. Additionally, the risks of investing in foreign securities are greater for investments in emerging markets. Emerging-market countries may experience higher inflation, interest rates, and unemployment, as well as greater social, economic, regulatory, and political uncertainties than more developed countries.

Leverage Risk: The Fund's use of options and futures is a form of leverage. Leveraging may cause the Fund to be more volatile than if the Fund had not been leveraged. This is because leveraging tends to exaggerate the effect of any increase or decrease in the value of the Fund's portfolio securities.

Management Risk: The ability of the Fund to meet its investment objective is directly related to the allocation of the Fund's assets. Brinker may allocate the Fund's investments so as to under-emphasize or over-emphasize investments under the wrong market conditions, in which case the Fund's value may be adversely affected. The Fund's use of leverage may amplify this risk.

Market and Geopolitical Risk: The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets. The current novel coronavirus (COVID-19) global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, has had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment.

Small and Medium Issuer Risk: Investments in Underlying Funds that own small and medium capitalization companies and direct investments in individual small and medium capitalization companies may be more vulnerable to adverse business or economic developments than investments in larger, more established organizations.

Underlying Funds Risk: You will indirectly pay fees and expenses charged by the Underlying Funds in addition to the Fund's direct fees and expenses. As a result, the cost of investing in the Fund will be higher than the cost of investing directly in Underlying Fund shares and may be higher than other mutual funds that invest directly in stocks and bonds. Each Underlying Fund is subject to specific risks, depending on the nature of the Underlying Fund. These risks could include sector risk (increased risk from a focus on one or more sectors of the market), as well as risks associated with fixed income securities, real estate investments, and commodities. ETFs are listed on national stock exchanges and are traded like stocks listed on an exchange. ETF shares may trade at a discount to or a premium above net asset value if there is a limited market in such shares. ETFs are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund. Because the value of ETF shares depends on the demand in the market, Brinker may not be able to liquidate the Fund's holdings at the most optimal time, adversely affecting performance.

Performance:

The following bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the performance of Class T shares of the Fund from year to year and by showing how the Fund's average annual returns for one year and over the life of the Fund compared with those of a broad measure of market performance, as well as a customized risk budget benchmark. The risk budget benchmark shows how the Fund's performance compares to a custom composite with similar risk levels as the Fund. The risk budget benchmark consists of 110% of a blended benchmark consisting of 60% of the Morningstar U.S. Market Index and 40% of the Morningstar Global Market ex US Lg-Mid Index. Past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future. Updated performance information is available at no cost by visiting www.advisoronefunds.com or by calling 1-866-811-0225.

Class T Shares Total Return for Years Ended December 31

During the period shown in the bar chart, the highest return for a quarter was 23.55% (quarter ended June 30, 2020) and the lowest return for a quarter was -23.44% (quarter ended March 31, 2020). The year to date return for the period ended June 30, 2021 was 12.03%.

AVERAGE ANNUAL TOTAL RETURN (for the periods ended December 31, 2020)

	1 Year	Life of Fund*
CLS Global Aggressive Equity Fund Class T		
return before taxes	23.50%	19.62%
return after taxes on distributions ⁽¹⁾	23.35%	17.69%
return after taxes on distributions and sale of Fund shares ⁽¹⁾	14.18%	14.87%
MSCI ACWI Index⁽²⁾ (reflects no deduction for fees, expenses, or taxes)	16.26%	18.37%
Risk Budget Benchmark (reflects no deduction for fees, expenses, or taxes)	18.30%	20.60%

(1) After-tax returns are based on the highest historical individual federal marginal income tax rates, and do not reflect the impact of state and local taxes; actual after-tax returns depend on an individual investor's tax situation and may differ from those shown. If you own shares of the Fund in a tax-deferred account, such as an individual retirement account or a 401(k) plan, this information is not applicable to your investment. A higher after-tax return results when a capital loss occurs upon redemption and translates into an assumed tax deduction that benefits the shareholder.

(2) The MSCI ACWI Index captures all sources of equity returns in 23 developed and 27 emerging markets.

* CLS Global Aggressive Equity Fund Class T shares commenced operations on December 7, 2018.

Investment Adviser:

Brinker Capital Investments, LLC

Portfolio Managers:

Brinker utilizes a team approach for management of the Fund, and from the team, the Fund is assigned co-portfolio managers who are primarily responsible for the day-to-day management of the Fund's portfolio. Grant Engelbart, CFA, Portfolio Manager of Brinker and Michael Hadden, Associate Portfolio Manager of Brinker, share primary responsibility for the day-to-day management of the Fund's portfolio. Mr. Engelbart has served as Co-Portfolio Manager of the Fund since May 2014. Mr. Hadden has served as Co-Portfolio Manager of the Fund since September 2020.

Purchase and Sale of Fund Shares:

You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading, subject to certain restrictions described under the section titled "How Shares Are Priced" of the Fund's Prospectus. Purchases and redemptions may be made by mailing an application or redemption request to AdvisorOne Funds c/o Gemini Fund Services, LLC, 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022, or by calling 1-866-811-0225. You also may purchase and redeem shares through a financial intermediary. The minimum initial investment in the Fund for Class T Shares is \$2,500. The minimum subsequent investment is \$250.

Tax Information:

Dividends and capital gain distributions you receive from the Fund are taxable to you as either ordinary income or capital gains tax rates unless you are investing through a tax deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries:

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.
