FUND SUMMARY

Investment Objective

OnTrack Core Fund (the "Fund") seeks total return while keeping the Fund's volatility and downside risk below that of major equity market indices.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Examples below.

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	2.50%
Shareholder Servicing Fee	0.07%
Other Expenses	0.05%
Acquired Fund Fees and Expenses[(1)]	0.67%
Total Annual Fund Operating Expenses[(1)]	3.29%

(1) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The Annual Fund Operating Expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial statements include only the direct operating expenses incurred by the Fund.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
$332	$1,013	$1,717	$3,585

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the fiscal year ended December 31, 2025, the Fund's portfolio turnover rate was 359% of the average value of its portfolio.

Principal Investment Strategies

The Fund's Adviser delegates execution of the Fund's investment strategy to the Sub-Adviser. The Sub-Adviser will use a flexible investment approach that emphasizes capital preservation but allows the portfolio managers to adopt a less conservative posture and to increase emphasis on capital appreciation when they believe the additional risk is warranted by favorable market conditions. The Sub-Adviser seeks to achieve the Fund's investment objective by investing long-or-short primarily in stocks, bonds and commodities using the Sub-Adviser's technical and risk control strategies. However, the Sub-Adviser may choose not to allocate Fund assets to each group, depending upon market conditions. The Sub-Adviser executes stock investments primarily through (1) individual stocks, (2) stock mutual funds, (3) stock exchange-traded funds ("ETFs"), (4) swap contracts on individual stocks, stock mutual funds and ETFs (5) stock index-based and sector-based futures contracts and (6) limited partnerships and limited liability companies (pooled vehicles). The Sub-Adviser executes bond investments primarily through (1)bond mutual funds, (2) bond ETFs and swap contracts on individual bond mutual funds and ETFs, and (3) limited partnerships and limited liability companies (pooled vehicles). The Sub-Adviser executes commodity investments primarily through (1) commodity ETFs, (2) commodity-linked exchange-traded notes ("ETNs"), (3) commodity-linked structured notes and (4) commodity futures contracts. The Fund limits its investment in privately placed pooled vehicles that are commonly known as hedge funds and excluded from the definition of investment company under Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act of 1940, as amended, (the "1940 Act") to no more than 10% of Fund assets. The Fund may invest 100% of its assets in ETFs and or mutual funds. The Sub-Adviser seeks total return from capital appreciation and income from both dividends and interest payments.

The Fund invests without restriction as to issuer or counterparty country or capitalization and without restriction as to bond credit quality, maturity, issuer type or structure. These investments may include significant allocations to lower quality rated corporate debt commonly known as "junk bonds." Junk bonds are generally rated lower than Baa3 by Moody's Investors Service, Inc. ("Moody's") or lower than BBB- by S&P Ratings Group ("S&P"). Bonds include mortgage-backed securities ("MBS"). The Sub-Adviser may invest in foreign countries including emerging markets. However, the Sub-Adviser focuses primarily on U.S. investments. The Sub-Adviser uses derivatives as substitutes for underlying assets and for risk management. The Fund does not invest more than 25% of its assets in swap contracts with any one counterparty. The Sub-Adviser takes short positions when it believes a specific asset or asset class will decline in price, or to manage (hedge) the price risk of the long positions in the Fund's portfolio. When the Sub-Adviser believes market

conditions are appropriate, the Fund may borrow money from banks to make additional portfolio investments. The Fund may borrow an amount equal to as much as one-third of the value of its total assets (which includes the amount borrowed). The Sub-Adviser engages in frequent trading to achieve the Fund's investment objective, which results in turnover in excess of 100%. The Fund may, but is not required to be, fully invested; it may also be 100% in money market funds or other money market instruments as a defensive measure.

The Fund may use leverage achieved through the use of swaps and futures, as well as bank borrowings, and other instruments to leverage the returns of the Fund's portfolio to take advantage of market opportunities. However, these instruments may also be used for hedging purposes.

The Sub-Adviser's technical strategy is based on a form of technical analysis known as "chart analysis" that attempts to invest in up-trending assets that are expected to produce above average risk-adjusted returns. Up-trending assets are those with generally rising prices and down-trending assets are those with generally falling prices. The Sub-Adviser also uses this technique to take short positions in down-trending assets. The Sub-Adviser defines risk as expected return volatility and expected downside loss. Expected downside loss is also referred to as downside risk or drawdown risk.

The Sub-Adviser invests long in assets that it believes have up-trending prices and relatively attractive risk-adjusted returns; and invests short in assets that it believes have down-trending prices and relatively unattractive risk-adjusted returns, or to hedge portfolio risks. The Sub-Adviser sells long positions when it believes price trends or risk trends have become unattractive. The Sub-Adviser covers (buys back) short positions when price trends have turned neutral or up-trending, or risk trends have turned neutral, or when hedging is no longer needed.

Principal Investment Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value and performance. The following risks apply to the Fund directly and indirectly through the Fund's investment in mutual funds, ETFs, and pooled vehicles.

Management Risk: The Sub-Adviser's reliance on its strategies and judgments about the attractiveness, value and potential appreciation of particular assets may prove to be incorrect and may not produce the desired results.

Bond Risk: Typically, a rise in interest rates causes a decline in the value of bonds. Current conditions may result in a rise in interest rates, which in turn may result in a decline in the value of the bond investments held by the Fund. As a result, for the present, interest rate risk may be heightened. The credit quality of securities may be lowered if an issuer's financial condition deteriorates, and issuers may default on their interest and/or principal payments.

Commodity Risk: Investing in the commodities markets may subject the Fund to greater volatility than investments in traditional securities. Commodity prices may be influenced by unfavorable weather, animal and plant disease, geologic and environmental factors as well as changes in government regulation such as tariffs, embargoes or burdensome production rules and restrictions.

Derivatives Risk: Derivatives are subject to tracking risk because they may not be perfect substitutes for the instruments they are intended to hedge or replace. Short positions are subject to potentially unlimited liability. Over the counter derivatives, such as swaps, are subject to counterparty default. Leverage inherent in derivatives, including futures contracts, will tend to magnify the Fund's losses.

Emerging Market Risk: Investing in emerging markets involves not only the risks described below with respect to investing in foreign securities, but also other risks, including exposure to economic structures that are generally less diverse and mature, limited availability and reliability of information material to an investment decision, and exposure to political systems that can be expected to have less stability than those of developed countries. The typically small size of the markets of securities of issuers located in emerging markets and the possibility of a low or nonexistent volume of trading in those securities may also result in a lack of liquidity and in price volatility of those securities.

Equity Risk: The net asset value ("NAV") of the Fund will fluctuate based on changes in the value of the equity securities (common and preferred stocks) in which it invests. Equity prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. Preferred stocks typically decline in value when interest rates rise. Preferred stocks are also subject to credit risk because of the possibility that an issuer fail to make its preferred stock dividend payments.

Foreign Investment Risk: Foreign investments may be riskier than U.S. investments for many reasons, such as changes in currency exchange rates and unstable political, social, and economic conditions.

Junk Bond Risk: Lower-quality fixed income securities, known as "high yield" or "junk" bonds, present greater risk than bonds of higher quality, including an increased risk of default. These securities are considered speculative. Defaulted securities or those subject to reorganization proceeding may become worthless and are illiquid.

Leverage Risk: Derivatives magnify losses because they require only a small investment relative to their notional amount. Borrowing magnifies the potential for losses and exposes the Fund to interest expenses on money borrowed.

Market Risk: Overall investment market risks affect the value of the Fund. Factors such as economic growth and market conditions, interest rate levels, and political events affect the US and international investment markets. Additionally, unexpected local, regional, or global events, such as war; acts of terrorism; financial, political, or social disruptions; natural, environmental, or man-made disasters; the spread of infectious illnesses or other public health issues (such as the global pandemic coronavirus disease 2019 (COVID-19)); and recessions and depressions could have a significant impact on the Fund and its investments and may impair market liquidity. Such events can cause investor fear, which can adversely affect the economies of nations, regions, and the market in general, in ways that cannot necessarily be foreseen.

Municipal Securities Risk: Changes in the financial health of a municipality may make it difficult for it to make interest and principal payments when due. A downgrade in an issuer's, or a security's credit rating can reduce the market value of the security. The value of municipal bonds that depend on a specific revenue source or general revenue source to fund their payment obligations may fluctuate as a result of changes in the cash flows generated by the revenue source(s) or changes in the priority of the municipal obligation to receive the cash flows generated by the revenue source(s). In addition, changes in federal tax laws or the activity of an issuer may adversely affect the tax-exempt status of municipal bonds.

Mortgage-Backed Security ("MBS") Risk: MBS are subject to credit risk because underlying loan borrowers may default. Additionally, these securities are subject to prepayment risk because the underlying loans held by the issuers may be paid off prior to maturity.

Mutual Fund Risk, ETF Risk, ETN Risk and Pooled Vehicle Risk: Mutual funds, ETFs, ETNs and pooled vehicles involve duplication of investment advisory fees and certain other expenses. ETFs are subject to brokerage and other trading costs, which could result in greater expenses to the Fund. Pooled vehicles will not have all the protections of the 1940 Act such as governance standards, limits on leverage and fees including the structure of performance-based managed fees.

Short Position Risk: The Fund's short positions may result in a loss if the price of the short position instruments rises, and it costs more to cover the short positions. In contrast to the Fund's long positions for which the risk of loss is typically limited to the amount invested, the potential loss on the Fund's short positions is unlimited. Long/short and market neutral mutual funds and ETFs will limit the Fund's participation in market wide gains.

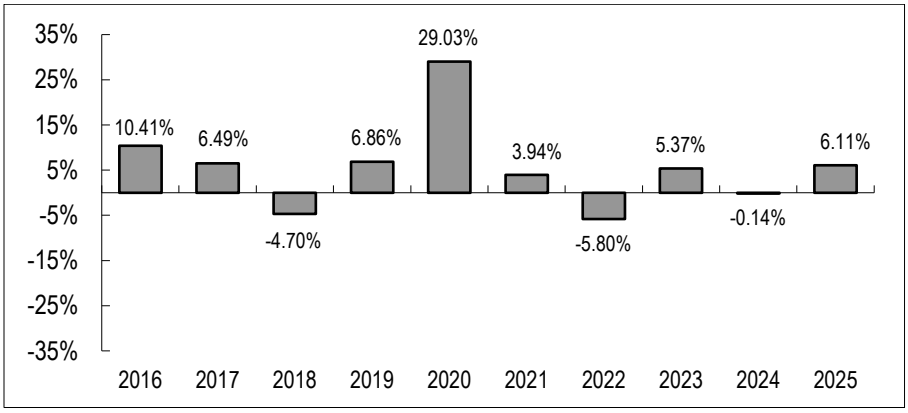

Small and Medium Capitalization Stock Risk: The value of small or medium capitalization company may be subject to more abrupt or erratic market movements than larger, more established companies or the market averages in general.

Turnover Risk: A higher portfolio turnover may result in higher transactional and brokerage costs. The Fund's portfolio turnover rate is expected to be above 100% annually.

Performance

The bar chart and performance table below show the variability of the Fund's returns, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund's Investor Class shares for each full calendar over the past ten years. The performance table compares the performance of the Fund's Investor Class shares overtime to the performance of a broad-based market index and two supplemental indexes. You should be aware that the Fund's past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Also, shareholder reports containing financial and performance information will be mailed to shareholders semi-annually. Updated performance information is available at no cost by visiting https://www.advisorspreferred.com/ontrack-core-fund or by calling 1-855-747-9555.

Investor Class Performance Bar Chart
For Calendar Year Ended December 31

Worst Quarter	12/31/2018	(4.88)%

Performance Table
Average Annual Total Returns
(For periods ended December 31, 2025)

Investor Class Shares	1 Year	5-Years	Ten Years
Return Before Taxes	6.11%	1.80%	5.38%
Return After Taxes on Distributions	1.24%	(0.39)%	3.39%
Return After Taxes on Distributions and Sale of Fund Shares	3.75%	0.50%	3.34%
Bloomberg U.S. Aggregate Bond Index[1] (reflects no deduction for fees, expenses or taxes)	7.30%	(0.36)%	2.01%
Bloomberg U.S. 1-3 Month Treasury Bill Index[2] (reflects no deduction for fees, expenses or taxes)	4.29%	3.24%	2.18%
S&P 500 Total Return Index [3] (reflects no deduction for fees, expenses or taxes)	17.88%	14.42%	14.82%

(1) The Bloomberg U.S. Aggregate Bond Index is an unmanaged index comprised of U.S. investment grade, fixed market securities, including government agency, corporate and mortgage-backed securities. Investors cannot invest directly in an index. The Fund changed its broad based securities market index to the Bloomberg U.S. Aggregate Bond Index from the Bloomberg 1-3 Month U.S. Treasury Bill Index to comply with regulatory requirements.

(2) The Bloomberg 1-3 Month U.S. Treasury Bill Index includes all publicly issued U.S. Treasury Bills that have a remaining maturity of less than 3 months and more than 1 month, are rated investment grade, and have $250 million or more of outstanding face value. Investors cannot invest directly in an index.

(3) The S&P 500 Total Return Index is an unmanaged composite of 500 large capitalization companies and includes the reinvestment of dividends. This index is widely used by professional investors as a performance benchmark for large-cap stocks. Investors cannot invest directly in an index.

After-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Investment Adviser

Advisors Preferred LLC (the "Adviser")

Sub-Adviser

Price Capital Management, Inc. (the "Sub-Adviser")

Sub-Adviser Portfolio Managers

Michael L. Price, President of the Sub-Adviser, and W. Lee Harris, Jr., Chief Compliance Officer of the Sub-Adviser have served the Fund as its portfolio managers since it commenced operations in 2013.

Purchase and Sale of Fund Shares

You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading by written request or by telephone. The minimum initial investment in the Fund is $1,000. The minimum subsequent investment in the Fund is $500. The Fund, Adviser or Sub-Adviser may waive any investment minimum.

Tax Information

Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) Plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund's investment objective is total return while keeping the Fund's volatility and downside risk below that of major equity market indices. The Fund's investment objective may be changed by the Fund's Board of Trustees (the "Board" or "Trustees") upon 60 days' written notice to shareholders.

Principal Investment Strategies

The Sub-Adviser uses a flexible investment approach that emphasizes capital preservation but allows the portfolio managers to adopt a less conservative posture and to increase emphasis on capital appreciation when they believe the additional risk is warranted by favorable market conditions. The Sub-Adviser seeks to achieve the Fund's investment objective by investing long-or-short, primarily in stocks, bonds and commodities using the Sub-Adviser's technical and risk control strategies. Portfolio composition will vary significantly depending on the Sub-Adviser's assessment of asset classes over time.

Technical and Risk Control Strategies

While the Sub-Adviser primarily relies on the use of chart analysis in an attempt to invest in up-trending assets that are producing above average risk-adjusted returns, it is also an advocate of modifying selection techniques as market conditions change. The market constantly changes, and the Sub-Adviser believes that the successful investor must be prepared to change and adapt to an ever-changing market environment. The Sub-Adviser may modify its selection techniques in the future if market conditions change. The Sub-Adviser recognizes that asset selection strategies may be more important than market timing but may use both concepts in an effort to reduce risk and increase risk-adjusted returns. Risk control will be achieved through allocating across asset classes, active trading and close monitoring of market and economic conditions. Positions will be monitored daily, and the Sub-Adviser will take action as appropriate to maintain portfolio risk within appropriate limits. When economic or market conditions warrant, the Fund may invest all or part of its assets in money market funds.

Principal Investment Risks

Management Risk: The Sub-Adviser's reliance on its value strategy and its judgments about the value and potential appreciation of securities in which the Fund invests may prove to be incorrect. The ability of the Fund to meet its investment objective is directly related to the Sub-Adviser's proprietary investment process. The Sub-Adviser's assessment of the relative value of securities and their attractiveness and potential appreciation of particular investments in which the Fund invests may prove to be incorrect and there is no guarantee that the Sub-Adviser's investment strategy will produce the desired results.

Bond Risk: When the Fund invests in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Current conditions may result in a rise in interest rates, which in turn may result in a decline in the value of the bond investments held by the Fund. As a result, for the present, interest rate risk may be heightened. Other risk factors include credit risk (the debtor may default) and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments). These risks could affect the value of a particular investment, possibly causing the Fund's share price and total return to be reduced and fluctuate more than other types of investments.

Commodity Risk: The Fund's exposure to the commodities markets may subject the Fund to greater volatility than investments in traditional securities. The value of commodity-linked derivative instruments, commodity-based ETFs and ETNs may be affected by changes in overall market movements, commodity index volatility, changes in interest rates, or sectors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, embargoes, tariffs, and international economic, political, and regulatory developments.

Derivatives Risk: The Fund may use swaps and futures to enhance returns or hedge against market declines. The Fund's use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a derivative transaction may not fulfill its contractual obligations; (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate, or index. Derivative prices are highly volatile and may fluctuate substantially during a short period of time. Such prices are influenced by numerous factors that affect the markets, including, but not limited to changing supply and demand relationships; government programs and policies; national and international political and economic events, changes in interest rates, inflation and deflation and changes in supply and demand relationships. Trading derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities. Derivative contracts ordinarily have leverage inherent in their terms. The low margin deposits normally required in trading derivatives, including futures contracts, permit a high degree of leverage. Accordingly, a relatively small price movement may result in an immediate and substantial loss to the Fund. The use of leverage may also cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations or to meet collateral segregation requirements. The use of leveraged derivatives can magnify the Fund's potential for loss and, therefore, amplify the effects of market volatility on the Fund's share price.

Emerging Market Risk: The Fund may invest a portion of its assets in countries with newly organized or less developed securities markets. There are typically greater risks involved in investing in emerging markets securities. Generally, economic structures in these countries are less diverse and mature than those in developed countries and their political systems tend to be less stable. Emerging market economies may be based on only a few industries, therefore security issuers, including governments, may be more susceptible to economic weakness and more likely to default. Emerging market countries also may have relatively unstable governments, weaker economies, and less-developed legal systems with fewer security holder rights. Investments in emerging market countries may be affected by government policies that restrict foreign investment in certain issuers or industries. The potentially smaller size of their securities markets and lower trading volumes can make investments relatively illiquid and potentially more volatile than investments in developed countries, and such securities may be subject to abrupt and severe price declines. Due to this relative lack of liquidity, the Fund may have to accept a lower price or may not be able to sell a portfolio security at all. An inability to sell a portfolio position can adversely affect the Fund's value or prevent the Fund from being able to meet cash obligations or take advantage of other investment opportunities.

Equity Risk: The net asset value per share ("NAV") of the Fund will fluctuate based on changes in the value of the securities (common and preferred stocks) in which the Fund invests. The Fund's investments in equity securities are more volatile and carry more risk than some other forms of investments. The price of equity securities may rise or fall because of economic or political changes. Stock prices, in general, may decline over short or even extended periods of time, and tend to be more volatile than other investment choices. Market prices of equity securities in broad market segments may be adversely affected by a prominent issuer having experienced losses or by the lack of earnings or such an issuer's failure to meet the market's expectations with respect to new products or services, or even by factors wholly unrelated to the value or condition of the issuer, such as changes in interest rates. Preferred stocks are subject not only to risks generally applicable to equity securities, but also certain risks associated with debt securities, such as rising interest rate risk. Preferred stock generally pays dividends only after the company makes required payments to creditors, counterparties, and holders of its debt securities. The value of preferred stock may react more strongly than debt to actual or perceived changes in the company's financial condition. Preferred stock may be less liquid than common stock and generally has limited or no voting rights. Preferred stock is subject to the risks that a company may defer or not pay dividends, and, in certain situations, may call or redeem its preferred stock.

Foreign Investment Risk: Foreign investments may be riskier than U.S. investments for many reasons, including changes in currency exchange rates; unstable political, social and economic conditions; possible security illiquidity; a lack of adequate or accurate company information; differences in the way securities markets operate; less secure foreign banks or securities depositories than those in the U.S.; less standardization of accounting standards and market regulations in certain foreign countries; and varying foreign controls on investments. Because the Fund can make foreign investments, its share price may be more affected by foreign economic and political conditions, taxation policies and accounting and auditing standards than would otherwise be the case. These risks are more pronounced in emerging market countries.

Junk Bond Risk: Lower-quality fixed income securities, known as "high yield" or "junk" bonds, present a significant risk for loss of principal and interest. These securities are considered speculative. These bonds offer the potential for higher return but also involve greater risk than bonds of higher quality, including an increased possibility that a bond's issuer, obligor, or guarantor may not be able to make its payments of interest and principal (credit quality risk). If that happens, the value of the bond may decrease, and the Fund's share price may decrease, and its income distribution may be reduced. An economic downturn or period of rising interest rates (interest rate risk) could adversely affect the market for these bonds and reduce the Fund's ability to sell its bonds (liquidity risk). Such securities may also include "Rule 144A" securities, which are subject to resale restrictions. The lack of a liquid market for these bonds could decrease the Fund's share price. Defaulted securities, those subject to a reorganization including bankruptcy court protection may become worthless, completely illiquid, or subject to lengthy legal proceedings that will delay the resolution of their value, if any.

Leverage Risk: Derivatives such as futures and swaps also magnify losses because they require only a small investment relative to their notional amount. Borrowing magnifies the potential for loss of the Fund, and therefore increases the possibility of a fluctuation in the Fund's NAV. This is the speculative factor known as leverage. Because the Fund's investments will fluctuate in value, whereas the interest obligations on borrowed funds may be fixed, during times of borrowing, the Fund's NAV may tend to increase more when its investments increase in value and decrease more when its investments decrease in value. Unless profits on assets acquired with borrowed funds exceed the costs of borrowing, the use of borrowing will diminish the investment performance of the Fund compared with what it would have been without borrowing.

Market Risk: Overall investment market risks affect the value of the Fund. Factors such as economic growth and market conditions, interest rate levels, and political events affect the US and international investment markets. When the value of the Fund's investments goes down, your investment in the Fund decreases in value and you could lose money.

For example, the COVID-19 global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, has had negative impacts, and in many cases severe negative impacts, on markets worldwide. COVID-19 negatively affected the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Any such impact from a similar worldwide outbreak could adversely affect the Fund's performance and the performance of the securities in which the Fund invests. During an outbreak, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns.

Market events such as these and other types of market events may cause significant declines in the values and liquidity of many securities and other instruments, and significant disruptions to global business activity and financial markets. Turbulence in financial markets, and reduced liquidity in equity, credit and fixed-income markets may negatively affect many issuers both domestically and around the world, and can result in trading halts, any of which could have an adverse impact on the Fund. During periods of market volatility, security prices (including securities held by the Fund) could change drastically and rapidly, and therefore adversely affect the Fund.

Mortgage Backed Securities Risk: Mortgage Backed Securities ("MBS") are subject to credit risk because underlying loan borrowers may default. MBS default rates tend to be sensitive to overall economic conditions and to localized property vacancy rates and prices. Certain individual securities may be more sensitive to default rates because payments may be subordinated to other securities of the same issuer. Additionally, MBS are subject to prepayment risk because the underlying loans held by the issuers may be paid off prior to maturity. The value of these securities may go down as a result of changes in prepayment rates on the underlying mortgages or loans. During periods of declining interest rates, prepayment rates usually increase, and the Fund may have to reinvest prepayment proceeds at a lower interest rate.

Municipal Securities Risk: Changes in the financial health of a municipality may make it difficult for it to make interest and principal payments when due. A downgrade in an issuer's, or security's credit rating can reduce the market value of the security. The value of municipal bonds that depend on a specific revenue source or general revenue source to fund their payment obligations may fluctuate as a result of changes in the cash flows generated by the revenue source(s) or changes in the priority of the municipal obligation to receive the cash flows generated by the revenue source(s). Municipal revenue obligation debt issuers may experience shortfalls in revenues, such as sales taxes, fuel taxes, or hotel occupancy taxes, generated by the particular project being financed. The Fund may be more sensitive to adverse economic, business, or political developments if it invests a substantial portion of its assets in the bonds of similar projects (such as those relating to education, health care, housing, transportation, and utilities), industrial development bonds, or in bonds from issuers in a single state. In addition, changes in federal tax laws or the activity of an issuer may adversely affect the tax-exempt status of municipal bonds. The municipal securities market could be significantly affected by adverse political and legislative changes or litigation at the federal or state level, as well as uncertainties related to taxation or the rights of municipal security holders.

Mutual Fund, ETF, ETN and Pooled Vehicle Risk: Mutual funds, ETFs, ETNs and pooled vehicles involve duplication of investment advisory fees and certain other expenses. In addition, because ETFs and ETNs are listed on national stock exchanges and are traded like equity securities listed on an exchange, ETF and ETN shares potentially trade at a discount or a premium. Investments in ETFs and ETNs are also subject to brokerage and other trading costs, which could result in greater expenses to a Fund. Mutual funds, ETFs, ETNs and pooled vehicles are subject to strategy risks depending on the nature of the fund. Pooled vehicles will not have all the protections of the 1940 Act, such as governance standards, limits on leverage and fees including the structure of performance-based managed fees. Pooled vehicles may be or become illiquid.

Short Position Risk: The Fund's long positions could decline in value at the same time that the value of the short positions increase thereby increasing the Fund's overall potential for loss. The Fund's short positions may result in a loss if the price of the short position instruments rises, and it costs more to cover the short positions. In contrast to the Fund's long positions, for which the risk of loss is typically limited to the amount invested, the potential loss on the Fund's short positions is unlimited. Market factors may prevent the Fund from closing out a short position at the most desirable time or at a favorable price. Long/short and market neutral mutual funds and ETFs will limit the Fund's participation in market wide gains.

Small and Medium Capitalization Stock Risk: The stocks of small and medium capitalization companies involve substantial risk. These companies may have limited product lines, markets, or financial resources, and they may be dependent on a limited management group. Stocks of these companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Turnover Risk: A higher portfolio turnover may result in higher transactional and brokerage costs associated with the turnover, which may reduce the Fund's return unless the securities traded can be bought and sold without corresponding commission costs. Active trading of securities may also increase the Fund's realized capital gains or losses, which may affect the taxes you pay as a Fund shareholder. The Fund's portfolio turnover rate is expected to be above 100% annually.

Liquidity Program

The Fund may participate in the ReFlow Fund, LLC ("ReFlow") liquidity program, which is designed to provide an alternative liquidity source for mutual funds experiencing net redemptions of their shares. Pursuant to the program, ReFlow provides participating mutual funds with a source of cash to meet net shareholder redemptions by standing ready each business day to purchase Fund shares up to the value of the net shares redeemed by other shareholders that are to settle the next business day. Following purchases of Fund shares, ReFlow then generally redeems those shares when the Fund experiences net sales, at the end of a maximum holding period determined by ReFlow (currently 28 days) or at other times at ReFlow's discretion. While ReFlow holds Fund shares, it will have the same rights and privileges with respect to those shares as any other shareholder. ReFlow will periodically redeem its entire share position in the Fund and request that such redemption be met in kind in accordance with the Fund's redemption in kind

policies described under "HOW TO REDEEM SHARES" below. For use of the ReFlow service, the Fund pays a fee to ReFlow each time it purchases Fund shares, calculated by applying to the purchase amount a fee rate determined through an automated daily auction among participating mutual funds. The minimum fee rate is 0.25% of the value of the Fund shares purchased by ReFlow although the Fund may submit a bid at a higher fee rate if it determines that doing so is in the best interest of Fund shareholders. During periods of low market liquidity, fees paid to ReFlow may be higher but cannot be meaningfully estimated. ReFlow's purchases of Fund shares through the liquidity program are made on an investment-blind basis without regard to the Fund's objective, policies, or anticipated performance. ReFlow purchases will not be subject to any investment minimum applicable to such shares. Investments in the Fund by ReFlow in connection with the ReFlow liquidity program are not subject to the market timing limitation described in "FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES" below. The investment Adviser and Sub-Adviser believe that the program assists in stabilizing the Fund's net assets to the benefit of the Fund and its shareholders. To the extent a Fund's net assets do not decline, the investment Adviser and Sub-Adviser may also benefit.

Temporary Investments

To respond to adverse markets, economic, political, or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities, money market instruments and cash. These short-term debt securities and money market instruments include shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments or cash at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure

A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information ("SAI").

Fund Proxy Voting Disclosures

The actual voting records relating to portfolio securities of the Fund during the most recent 12-month period ended June 30 are available without charge, upon request, by calling toll free 1-855-747-9555. The information is available on the Fund's website at https://www.advisorspreferred.com/ontrack-core-fund or on the SEC's website at www.sec.gov. In addition, a copy of the Trust's proxy voting policies and procedures are also available by calling 1-855-747-9555 and will be sent within three business days of receipt of a request.

Tailored Shareholder Report Disclosure

The Fund's annual and semi-annual Tailored Shareholder Reports ("TSRs") are available without charge, upon request, by calling toll free 1-855-747-9555. The information is available on the Fund's website at https://www.advisorspreferred.com/ontrack-core-fund.

Cybersecurity

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption form computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and shareholders could be negatively impacted as a result of a cybersecurity breach. Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that slowdown, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate NAV; impediments to trading; the inability of the Fund, the Adviser, the Sub-Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediates and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser

Advisors Preferred, LLC ("Advisors Preferred"), located at 1445 Research Blvd., Suite 530, Rockville, MD 20850, serves as investment adviser to the Fund. Subject to the authority of the Board, the adviser is responsible for management of the Fund's investment portfolio directly or through a sub-adviser. Advisors Preferred is responsible for assuring the Fund's investments are selected according to the Fund's investment objective, policies, and restrictions. Advisors Preferred was formed in 2011 and provides investment advisory services to mutual funds. As of December 31, 2025, Advisors Preferred had approximately $1.8 billion in assets under management. Pursuant to an advisory agreement between the Fund and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 2.50% of the Fund's average daily net assets. During the fiscal year ended December 31, 2025, the Adviser earned fees at this rate. The Adviser pays all operating expenses of the Fund, with the exception of shareholder servicing fees, acquired fund fees and expenses, brokerage fees and commissions, borrowing costs (such as interest and dividends on securities sold short, if any), certain SEC reporting and liquidity program costs, taxes, and extraordinary expenses. After paying operating expenses, the Adviser retains 0.35% and then pays the remainder to the Sub-Adviser.

Sub-Adviser

Price Capital Management, Inc., ("Price Capital"), located at 85 Chanteclaire Circle, Gulf Breeze, FL 32561, serves as investment Sub-Adviser to the Fund. Subject to the authority and oversight of the Board and the Adviser, the Sub-Adviser is responsible for management of the Fund's investment portfolio. Price Capital has over ten years of experience providing investment advisory services to pooled investment vehicles. As of December 31, 2025, Price Capital had over $234 million in assets under management. Pursuant to a sub-advisory agreement between the Adviser and the Sub-Adviser, the Price Capital is entitled to receive from the Adviser (not the Fund), on a monthly basis, a fee as described above.

A discussion regarding the basis for the Trustees' approval of the advisory agreement and sub-advisory agreement is available in the Fund's semi-annual shareholder report for the period ended June 30, 2025.

Sub-Adviser Portfolio Managers

Michael L. Price has served as President of Price since he founded the company in 1997. Mr. Price served in the US Navy from 1963 – 1994. After graduating from Auburn University in 1971 with a degree in Applied Physics, he was commissioned an ensign and sent to flight training. After 32 years of service, including 23 years of commissioned services as a Navy pilot, he retired as a Captain (O-6). During this commissioned service, he earned advanced degrees in Systems Management from the University of Southern California, and National Security and Strategic Studies from the Naval War College. In 1993, he formed Investors OnTrack, Inc., to provide training for high-net-worth individual investors and professional investors, with an emphasis on technical analysis. In 1995, he began publishing the OnTrack Report, a weekly newsletter for mutual fund investors. In 1997, he formed Price Capital to manage individual accounts using mutual funds. In 2000, he formed two hedge funds and began the transition to hedge fund management. Price Capital currently manages four hedge funds in addition to the OnTrack Core Fund using a similar investment strategy. However, the OnTrack Core Fund is not a hedge fund.

W. Lee Harris, Jr. has served as Chief Compliance Officer of Price Capital since February 2012. Additionally, Mr. Harris serves as President of Lee Harris Capital Management, Inc., a position held since 2004. Mr. Harris served in the US Navy from 1974-2004. He earned a Mathematics degree from the United States Naval Academy in 1974, and a Masters in Business Administration from the University of North Florida in 1981. After his retirement from 30 years of service in 2004, he established Lee Harris Capital Management, Inc., to provide separate account management to individual investors.

The Fund's SAI provides additional information about the Portfolio Managers' compensation structure, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of shares of the Fund.

HOW SHARES ARE PRICED

Shares of the Fund are sold at NAV. The NAV of the Fund is determined at close of regular trading (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange ("NYSE") is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and Holidays. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund's securities are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid ask prices on such exchanges. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available, generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. Fair value pricing involves subjective judgments, and it is possible that the fair value determined for a security may be materially different from the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value team composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) Adviser and/or Sub-Adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to ensure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund's securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of some of the Fund's portfolio securities may change on days when you may not be able to buy or sell Fund shares.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund's portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Advisor may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine NAV, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund's assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund's NAV is calculated based upon the NAVs of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Purchasing Shares: The Fund reserves the right, in its sole discretion, to suspend the offering of shares or to reject purchase orders when, in the judgment of management, such suspension or rejection is in the best interests of the Fund. Subject to the Board's discretion, the Adviser and Sub-Adviser will monitor the Fund's total assets and may decide to close the Fund to new investments or to new accounts due to concerns that a significant increase in the size of the Fund may adversely affect the implementation of the Fund's strategy.

If the Fund closes to new investments, generally the Fund would be offered only to certain existing shareholders of the Fund and certain other persons, including (a) fee-based advisory model programs or financial advisors who manage fee-based wrap accounts that systematically trade in and out of the Fund based on model portfolio allocations; (b) persons who already hold shares of the Fund directly or through accounts maintained by financial intermediaries; (c) existing and future clients of registered investment advisers and planners whose clients already hold shares of the Fund on transaction fee and non-transaction fee platforms; (d) employees of the Adviser and/or the Sub-Adviser and their spouses, parents and children; (e) Trustees of Advisors Preferred Trust; and (f) defined contribution retirement plans of private employers and governed by ERISA or of state and local governments.

Except as otherwise noted, these restrictions apply to investments made directly with the Fund through its transfer agent, investments made indirectly through financial institutions and investments made indirectly through financial intermediaries. Once an account is closed, additional investments will not be accepted unless you are one of the investors listed above. Investors may be required to demonstrate eligibility to purchase shares of the Fund before an investment is accepted. Fund management reserves the right to (i) make additional exceptions that, in its judgment, do not adversely affect its ability to manage the Fund, (ii) reject any investment or refuse any exception, including those detailed above, that it believes will adversely affect its ability to manage the Fund, and (iii) close and re-open the Fund to new or existing shareholders at any time.

Initial Purchase Methods: To open an account, you must submit a completed New Account Application in good order. Initial investments may be funded via federal funds wire transfer, Automated Clearing House (ACH), or check drawn on a U.S. financial institution. The Fund offers its shares at the NAV next determined after an order is received in good order on a Business Day. The Fund reserves the right to reject any purchase order or payment method at its sole discretion.

Minimum and Additional Investment Amounts: You can open an account with a minimum initial investment of $1,000 and additional investments may be made in any amount at any time. There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. The Fund, the Adviser, and the Sub-Adviser each reserve the right to waive any investment minimum.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to the Fund. The Funds generally do not accept cash equivalents for the purchase of shares, including, but not limited to: cash, cashier's checks, bank official checks, certified checks, bank money orders, third-party checks (except for properly endorsed IRA transfer and rollover checks), counter checks, starter checks, traveler's checks, money orders, credit card checks, cryptocurrency, or payments drawn on non-U.S. financial institutions. Redemptions of Shares of the Fund purchased by check may be subject to a hold period until the check has been cleared by the issuing bank. To avoid such holding periods, Shares may be purchased through a broker or by wire, as described in this section.

Returned Check/NSF Fee: If your check or electronic payment does not clear, you will be responsible for any loss or expense incurred by the Fund or its Transfer Agent, as well as any applicable fees. A $25 fee will be charged to defray bank charges and processing costs associated with the returned payment. The Fund reserves the right to redeem shares from your account to cover any unpaid amounts.

For shareholder account funds and/or transfers into the Fund, the Fund may accept securities in lieu of cash at the discretion of the Adviser or Sub-Adviser. There may be blackout periods such as near the end of a fiscal quarter or other holding or reporting periods where the Adviser or Sub-Adviser may refuse to accept securities into the Fund from new or existing Shareholders. Any tax issues resulting from the exchange of securities into the Fund in lieu of cash are the responsibility of the shareholder.

Purchase by Mailing: You may purchase shares of the Fund by sending a completed application form to the following address:

Regular Mail	***Express/Overnight Mail***
OnTrack Core Fund	**OnTrack Core Fund**
c/o Ultimus Fund Services, LLC	c/o Ultimus Fund Services, LLC
P.O. Box 46707	225 Pictoria Drive, Suite 450
Cincinnati, OH 45246	Cincinnati, OH 45246

Automatic Investment Plan ("AI"): Shareholders may purchase shares through an Automatic Investment Plan ("AIP"), which provides for regular, periodic purchases in accordance with the shareholder's instructions and the transfer agent's procedures. With the shareholder's authorization, the transfer agent will process AIP purchases in the amount and frequency selected by the shareholder. There is no minimum investment amount required to participate in the AIP. Shareholders may change or terminate AIP instructions at any time by contacting the transfer agent. Only bank accounts maintained at U.S. financial institutions may be used. The Fund and/or the transfer agent may modify, suspend, or terminate the AIP at any time.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from, those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund toll-free at 1-855-747-9555 to obtain detailed wiring instructions and to notify the Fund that a wire transfer will be sent. The Fund will generally credit investments made by wire on the business day the funds are received by the Fund's designated bank, provided they are received prior to the close of regular trading on the New York Stock Exchange (NYSE) (typically **4:00 p.m. Eastern Time**). Your bank may charge a fee for same-day wire transfers. The Fund is not responsible for any delays in the receipt of wired funds due to the actions of the transmitting or receiving bank, or the Federal Reserve wire system.

Automated Clearing House (ACH) Purchases: Shareholders may purchase shares of the Fund through the Automated Clearing House ("ACH") network from a U.S. domestic bank or other U.S. domestic financial institution. All payments must be made in U.S. dollars.

Initial and Subsequent Purchases by ACH: ACH may be used for both initial and subsequent investments. To establish ACH instructions, shareholders must provide the required banking information on the Account Application (or other documentation acceptable to the Fund or its transfer agent).

Bank Account Requirements: The designated bank account must be maintained at a U.S. domestic financial institution. The name(s) and registration on the bank account must exactly match the name(s) and registration on the Fund account. The bank account must be owned and controlled by the shareholder(s). ACH transfers initiated from a third-party bank account will not be accepted.

Right to Reject/Good Order: The Fund and its transfer agent reserve the right to reject any ACH purchase request that is not received in "good order." A request is in "good order" when all required information, authorizations, and documentation have been received in proper form and are acceptable to the Fund or its transfer agent.

Payment for Shares and Good Funds Policy: The Fund accepts payment for shares by check, Automated Clearing House ("ACH") transfer, or wire transfer. All purchase orders are subject to acceptance by the Fund and will be executed at the next net asset value ("NAV") calculated after the order is received in good order.

Payments made by check or ACH may be subject to a collection period to ensure that funds have cleared and are received in "good funds." The Fund and its Transfer Agent reserve the right to delay the disbursement of redemption or exchange proceeds from shares purchased by check or ACH for up to **10 business days** (or longer, if necessary) to allow the payment to clear.

During this period, the proceeds of newly purchased shares are not available for redemption or exchange. This policy does not apply to purchases made by wire transfer, which are generally considered good funds upon receipt.

If a check or ACH payment does not clear, the purchase order will be cancelled, and the investor will be responsible for any resulting loss incurred by the Fund or its Transfer Agent, as well as any applicable fees.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transferring a minimum of $500.00 on a periodic basis into your established Fund account. Please contact the Fund toll-free at 1-855-747-9555 for more information about the Fund's Automatic Investment Plan.

When Order is Processed: All shares will be purchased at the NAV per share next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund by the close of regular trading on the NYSE will be processed on that same day. Requests received after close of regular trading on the NYSE will be processed on the next business day.

Purchases in Good Order: A purchase request will be considered to be in "Good order" only if it includes all of the following:

- A completed purchase application (for new accounts); and
- the exact dollar amount of the investment; and
- For existing accounts, the account number and the name(s) exactly as registered on the account; and.
- a completed purchase application or investment stub;
- Payment in U.S. dollars, payable to the Fund

Requests that are incomplete, unclear, or submitted without the required documentation may be delayed or rejected. The Fund and its transfer agent are not responsible for delays or losses due to requests that are not received in good order.

Good order means that your purchase (whether direct or through a financial intermediary) is complete and contains all necessary information; has all supporting documentation (such as trust documents, beneficiary designations, proper signature guarantees, IRA rollover forms, etc.); and is accompanied by sufficient purchase proceeds. An Account Application that is sent to the Fund's transfer agent does not constitute a purchase order until the transfer agent processes the Account Application and receives correct payment by check or wire transfer.

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund toll-free at 1-855-747-9555 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

Customer Identification Program (CIP) and Anti-Money Laundering (AML) Disclosure

Important Information About Procedures for Opening a New Account

To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions, including mutual funds, to obtain, verify, and record information that identifies each person or entity that opens an account, to the extent reasonable and practicable.

What this means for you: When you open an account, the Fund and/or its agents (including the Transfer Agent) will request your name, residential or business street address, date of birth (for individuals), and an identification number, such as a Social Security Number or Taxpayer Identification Number ("TIN"), and may request other information that will allow the Fund to identify you. For legal entities, the Fund may require documentation verifying the legal existence of the entity and, as required by applicable law, identifying and verifying the identity of beneficial owners and/or control persons. The Fund may also request to see a driver's license, passport, or other identifying documents. The Fund may also check customer information against government lists, as required or permitted by applicable law. The Fund will retain records of the information used to verify identity in accordance with applicable law.

Verification Process*:* The Fund and/or its agents reserve the right to:

- Refuse to open an account or delay the processing of a purchase order if the required information is not provided;
- Restrict transactions, close an account, or take other steps if identity cannot be verified within a reasonable timeframe; and/or
- Take any other action required or permitted by applicable law, including freezing an account or its assets.

If an account is closed because identity cannot be verified, shares will be redeemed at the next calculated net asset value ("NAV") following the closure (or as otherwise permitted by applicable law). To the extent permitted by applicable law, the Fund, the Transfer Agent, and their respective affiliates and agents will not be liable for any loss, including market fluctuations, resulting from delays, restrictions, or account closures related to this verification process.

Rights Reserved by the Funds: The Fund and its agents reserve the right at any time to: (i) reject or cancel all or any part of any purchase or exchange order; (ii) modify any terms or conditions related to the purchase, redemption or exchange of shares of any Fund; (iii) reject or cancel any request to establish a Systematic Purchase Plan or Systematic Redemption Plan; (iv) modify or terminate any sales charge waivers or exceptions; and (v) suspend, change or withdraw all or any part of the offering made by this prospectus.

HOW TO REDEEM SHARES

Share Classes: This Prospectus describes the Advisor Class of shares offered by the Fund. Investor Class shares of the Fund are sold by a separate prospectus. The main difference between each class share are ongoing fees, and exchanges between class shares are permitted. Each class of shares in the Fund represents an interest in the same portfolio of investments held by the Fund. However, not all share classes may be available for purchase in all states.

Share Class Conversions: Shareholders may convert Advisor Class shares to Investor Class shares of the Fund, provided they meet the eligibility requirements of the Investor Class. To qualify, the account registration must be identical, the account type must be the same, and you must satisfy the minimum initial investment and any other eligibility criteria for the Investor Class. Conversions are effected at the respective classes' net asset values and no sales charge is imposed at the time of conversion. Conversions are generally not taxable events, and for tax purposes, your original cost basis and holding period carry over to the new class. The Fund may permit or restrict conversions at its discretion, and availability may vary by intermediary.

The Fund typically expects that it will take up to seven days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer, any line of credit, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions.

Redeeming Shares by Mail: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

Regular Mail	***Express/Overnight Mail***
OnTrack Core Fund	**OnTrack Core Fund**
c/o Ultimus Fund Services, LLC	c/o Ultimus Fund Services, LLC
P.O. Box 46707	225 Pictoria Drive, Suite 450
Cincinnati, OH 45246	Cincinnati, OH 45246

Redemptions by Telephone: You may purchase, exchange, or redeem Fund shares by calling 1-855-747-9555. Telephone transaction privileges are automatically available for new accounts unless you decline them on your account application or later revoke them by written instruction to the Fund or its Transfer Agent.

Telephone instructions, if received in good order before the applicable cut-off time, will be processed at the Fund's next determined net asset value ("NAV"). Redemption proceeds will be sent promptly to your address of record by check or to your bank account of record by ACH or wire transfer. Telephone redemptions are generally limited to $50,000 per account. Requests for amounts above this limit must be submitted in writing and must include a Medallion Signature Guarantee.

During periods of heavy market activity or other unusual conditions, you may experience difficulty reaching the Fund or its Transfer Agent. Please allow additional time to place your transaction. The Fund or its Transfer Agent will not be held liable for any loss if you are unable to reach them to confirm a telephone transaction.

The Fund and its Transfer Agent use reasonable procedures to verify the authenticity of telephone instructions. These may include requiring an account number, a personal identification number (PIN) if applicable, recording of calls, and/or written confirmations. If these procedures are followed, neither the Fund nor its Transfer Agent will be responsible for any loss, liability, cost, or expense arising from unauthorized of fraudulent telephone instructions.

If you own an IRA, you will be asked to make an election regarding federal income tax withholding at the time of a redemption.

For your protection, telephone redemptions may be restricted for 30 days following a change of address or banking information. The Fund may also require a signature guarantee or other documentation for certain transactions.

The Fund reserves the right to modify, suspend, or terminate the telephone transaction privilege at any time, with or without notice.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution, or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: *A fee of $**15** will be charged for each wire transfer of redemption proceeds.* This fee will be deducted directly from your account and is subject to change without notice. Your bank or any intermediary institution may also charge a separate fee for receiving the wire. The Fund and its transfer agent are not responsible for any delays or additional fees imposed by the receiving bank or any intermediary institution.

Federal and State Income Tax Withholding (IRAs and Other Retirement Accounts): Distributions from IRAs and other retirement accounts may be subject to federal income tax withholding and, where applicable, state income tax withholding. Federal income tax generally will be withheld from IRA distributions unless you elect otherwise on the applicable request form. If you do not make a withholding election, withholding will be applied in accordance with applicable law and IRS rules. State income tax withholding may also apply depending on your state of residence and applicable state law. Withholding is not a determination of your actual tax liability.

Systematic Withdrawal Plan (SWP): Shareholders may redeem shares through a Systematic Withdrawal Plan ("SWP"), which provides for regular, periodic redemptions in accordance with the shareholder's instructions and the transfer agent's procedures. With the shareholder's authorization, the transfer agent will process SWP redemptions in the amount and frequency selected by the shareholder. Shareholders may change or terminate SWP instructions at any time by contacting the transfer agent. The Fund and/or the transfer agent may modify, suspend, or terminate the SWP at any time.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than (the lesser of) $250,000 or 1% of the Fund's assets at the beginning of the 90 days period. The Fund may also use redemption in kind for certain Fund shares held by Reflow. The securities will be chosen by the Fund and valued at the Fund's NAV. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue payment based on the next determined NAV following your redemption request. Redemption proceeds are typically sent on the next business day after a request is received in good order. Proceeds are generally paid by check, wire transfer, or ACH, as elected by the shareholder. As permitted by federal law, the Fund may delay payment for up to seven calendar days. The Fund also reserves the right to delay payment for shares recently purchased by check or via Automated Clearing House (ACH) until the payment has cleared, which may take up to 10 business days (or longer, if necessary).

The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of fund shares including ReFlow, and then from the sale of portfolio securities. Under certain circumstances, as described immediately above, redemption proceeds may be paid in kind rather than in cash. These redemption methods will be used in regular and stressed market conditions.

Redemption Requests in Good Order: A redemption request will be considered to be in "good order." only if it includes all of the following:

- The name of the Fund and the account number; and
- The exact dollar amount or number of shares to be redeemed, and
- The name(s) of the registered account owner(s), exactly as they appear on the account,; and
- Signature(s) of all registered owner(s); and
- Any required signature guarantee or medallion signature guarantee, if applicable; and
- Any documentation reasonably required by the Fund or its transfer agent to verify the identity or authority of the person(s) requesting the redemption; and
- Redemption requests that are incomplete, unclear, unsigned, or submitted without the required documentation or signature guarantees may be delayed or rejected. The Fund and its transfer agent are not responsible for processing delays or losses resulting from requests not received in good order.

Medallion Signature Guarantee Requirements: To protect shareholders and the Fund from potential fraud, the Fund and/or its transfer agent (the "Transfer Agent") may require a signature guarantee, including a Medallion Signature Guarantee ("MSG"), in certain circumstances. An MSG is a stamped certification from an eligible guarantor institution that verifies the authenticity of a signature and the authority and capacity of the person signing.

The Fund and/or the Transfer Agent may require an MSG in situations including, but not limited to, the following:

- The redemption amount exceeds $50,000 (or such other threshold as may be established by the Fund and/or the Transfer Agent);
- Proceeds are requested to be mailed to an address or sent to a bank account that was changed or added within the past 30 calendar days;
- Proceeds are requested to be made payable to a person or entity other than the registered account owner;
- Proceeds are requested to be sent to a financial institution account that is not in the shareholder's name;

- The account registration or ownership is being changed;
- Instructions are submitted by mail with alternate delivery instructions, special handling, or other non-standard processing; or
- Any other circumstance in which the Fund or the Transfer Agent reasonably determines that additional documentation or verification is appropriate.

An MSG must be obtained from an eligible guarantor institution that participates in a recognized Medallion Signature Guarantee program (STAMP, SEMP, or MSP). These institutions typically include banks, savings associations, credit unions, and broker-dealers. A notary seal is not an acceptable substitute for an MSG.

Shareholders should contact the Transfer Agent in advance if they are unsure whether an MSG will be required. The Fund and/or the Transfer Agent reserves the right, in its discretion, to waive or require an MSG and to reject any signature guarantee that it deems unacceptable.

Involuntary Redemptions: To minimize Fund operating expenses, the Fund reserves the right to redeem your shares and close your account if your account balance falls below the $1,000 minimum for any reason other than a decline in the Fund's net asset value (NAV). If your account falls below this required minimum, the Fund will provide you with 60 days' written notice to increase your account balance. If the balance is not brought up to the required minimum within this notice period, the Fund may, at its sole discretion, redeem all shares and mail a check for the proceeds to your address of record.

All shares of the Fund are also subject to involuntary redemption if the Board of Trustees determines, in its sole discretion, to liquidate the Fund. In such an event, the Fund will provide notice to shareholders, but will not be required to obtain shareholder approval prior to such liquidation. An involuntary liquidation or redemption is generally considered a taxable event and will create a capital gain or a capital loss. Shareholders should consult their tax advisors regarding any potential tax consequences.

Special Situations: There are certain times when you may be unable to sell shares of the Fund or proceeds may be delayed. This may occur during emergencies, unusual market conditions or when a Fund cannot determine the value of its assets or sell its holdings. The Fund reserves the right to reject any purchase order or suspend offering of its shares. Generally, a Fund may reject a purchase if it is disruptive to the efficient management of the Fund. The Fund may also refuse purchase requests from individuals or groups who have not been approved by the Fund's Sub-Adviser.

Suspension of Redemptions: The right of redemption may be suspended or the date of payment postponed (a) when trading on the New York Stock Exchange (NYSE) is restricted, as determined by applicable rules and regulations of the SEC; (b) when the NYSE is closed for other than customary weekend and holiday closings; (c) when the SEC has by order permitted such suspension; or (d) during an emergency, as determined by the SEC, as a result of which it is not reasonably practicable for the Fund to dispose of securities or to determine the value of its net assets.

Lost Shareholders, Inactive Accounts and Unclaimed Property: Unclaimed property laws may require the Fund or its transfer agent to transfer the assets of accounts that are considered abandoned, inactive, or lost (due to return mail) to the appropriate state authority. An account may be deemed unclaimed if the shareholder has not initiated any contact or transaction within a time period specified by applicable state law.

Before any transfer to the state is made, the Fund or its transfer agent will send a due diligence notice to the shareholder, is legislatively required.

In some cases, this process is referred to as escheatment, and shareholders may be required to reclaim the assets from the applicable state's unclaimed property office. Some states may also require the liquidation of shares prior to escheatment, and shareholders only be entitled to receive the cash value at the time of sale.

For retirement accounts, such escheatment may be treated as a taxable distribution, and federal and/or state income tax withholding may apply.

To help avoid escheatment, shareholders should maintain current contact information and periodically initiate contact with the Fund or its transfer agent. Examples of shareholder-initiated contact include written correspondence, telephone inquiries, or initiating a transaction in the account.

In accordance with Texas Law, residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. A Texas Designation of Representative Form is available for making such an election.

Financial Intermediaries: Certain transactions through a financial intermediary may not be deemed in good form if such financial intermediary failed to notify the Fund of such trade or trades before 4:00 p.m. Eastern Time. In particular, financial intermediaries that transact in shares of the Fund through the Fund/SERV® system (a system used by mutual funds to settle purchases and redemptions of mutual fund shares) must, in many cases, notify the Fund of trades before placing them in the Fund/SERV® system. In the event that a financial intermediary transacts in shares of the Fund through the Fund/SERV® system without notifying the Fund of such trades in advance, such transaction may be deemed not to have been received in good order. In practice, this means confirmation from a financial intermediary is not binding on the Fund. In the event that a trade is deemed not to have been received in good order, for whatever reason, a purchase, redemption, or exchange request may be rejected or canceled and, in the event of a redemption which is canceled, the Fund shall have a right to a return of proceeds. Cancellation of a trade is processed at the NAV at which the trade was originally received and is completed as soon as practical, ordinarily the next business day. Please contact your financial intermediary to determine how it processes transactions in shares of the Fund.

Dividends and Distributions Reinvestment Policy: If you elect to receive your dividend and capital gain distributions via check, ACH, or wire, and the distribution amount is $50 or less, then the amount will be automatically reinvested as additional shares into your account.

For non-retirement and non-educational accounts, any dividend and capital gain distributions sent by check which are not cashed within 180 days will be reinvested into your account at the current day's NAV. When reinvested, those amounts are subject to market risk like any other investment.

Your distribution option will automatically be converted to having all dividends and capital gain distributions reinvested into your account as additional shares if any of the following occur:

1. Postal or other delivery service is unable to deliver mail or checks to the address of record thereby designating your account as "lost";
2. Dividends and capital gain distributions checks are not cashed within 180 days; or
3. Bank account of record is no longer valid.

For non-retirement and non-educational accounts, redemption proceeds sent by check which are not cashed within 180 days will be reinvested into your account at the current day's NAV. When reinvested, redemption proceeds are subject to market risk like any other investment.

Householding: To reduce expenses, the Fund mails only one copy of the Summary Prospectus and TSR, report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-855-747-9555 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request. Copies of the Prospectus, SAI and long form financials are available by phone.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing that it considers abusive. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency, and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Trust's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change or in response to perceived market conditions. The Fund currently uses several methods to reduce the risk of abusive market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy";
- Rejecting or limit specific purchase requests; and
- Rejecting purchase requests from certain investors.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser, Sub-Adviser, or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to (i) reject or limit the amount, number, frequency, or method for requesting future purchases into the Fund and/or (ii) reject or limit the amount, number, frequency, or method for requesting future exchanges out of the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in abusive market timing or other disruptive trading activities. Neither the Fund nor the Adviser nor the Sub-Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser or the Sub-Adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect abusive market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges, and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be abusive market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is abusive market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser or the Sub-Adviser, the service providers may take immediate action to stop any further short-term trading by such participants. The Reflow liquidity program is not subject to the market timing limits described above.

Account Statements and Transaction Confirmation: You will receive periodic account statements summarizing all account activity, including purchases, redemptions, and any reinvested dividends or capital gains. Additionally, a transaction confirmation will be sent for each financial transaction that occurs in your account, except for those taking place on a recurring basis, such as through an automatic investment plan or for dividend and capital gain distributions. For recurring transactions, the details will appear on your periodic account statement, serving as confirmation for such activity.

It is your responsibility to carefully review all transaction confirmations and account statements for accuracy immediately upon receipt. You must contact the Fund or its Transfer Agent in writing or by telephone promptly within 60 days of the date of the statement or confirmation that first reflects the disputed item. If you fail to provide timely notification within this 60-day period, you will be deemed to have ratified all account activity set forth therein, and the Fund and its agents will not be liable for any losses that may result from your failure to report the issue.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor, or your investment is in a qualified retirement account). When you redeem your shares of the Fund you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income at least annually, and net capital gains annually. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December even if they are paid during the following January. If you purchase shares before an ex-dividend date when a Fund has realized but not yet distributed income or capital gains, the purchase price may include the amount of the upcoming distribution, and you may pay the full price of shares and later receive a portion of the purchase price back as a taxable distribution. In such case, you generally will be taxed upon receipt of such distribution, even though the distribution represents a return of a portion of your purchase price. This is known as "buying a dividend." Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemption of Fund shares may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

Cost Basis Reporting: The Fund is required to report cost basis information to the IRS and to shareholders on Form 1099-B for redemptions of "covered shares," which are generally shares acquired on or after January 1, 2012.

The Fund's default cost basis calculation method is Average Cost. This method will be applied to your account unless you affirmatively elect a different IRS-accepted method, such as First-In, First-Out (FIFO) or Specific Share Identification. You may make this election for future transactions by providing written instructions, contacting Shareholder Services at 1-855-747-9555, or through your online account portal, where available.

Please note that, in accordance with IRS regulations, the cost basis method elected for the first redemption of covered shares cannot be changed after the settlement of the redemption. The cost basis method you select may have significant tax implications. The Fund is not authorized to provide tax advice. We strongly recommend you consult your tax advisor to determine which method is most suitable for your individual circumstances.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption, or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Ceros Financial Services, Inc. ("Ceros"), located at 1445 Research Blvd., Suite 530, Rockville, MD 20850, is the distributor for the shares of the Fund. Ceros is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Ceros and the Adviser are affiliates because they are under common control. Shares of the Fund are offered on a continuous basis.

Additional Compensation to Financial Intermediaries: The Fund's distributor, its affiliates, and the Fund's Adviser and Sub-Adviser and their affiliates may each, at their own expense and out of their own assets including their legitimate profits from Fund-related activities, provide additional cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

PORTFOLIO HOLDINGS INFORMATION

A description of the Fund's policies and procedures with respect to the disclosure of a Fund's portfolio securities is available in the Fund's SAI. Disclosure of the Fund's holdings is required to be made within 60 days of the end of each fiscal quarter and in the financials contained in the monthly N-PORT filed with the SEC. The financials are not required to be mailed to shareholders. The TSR is filed within 60 days of the end of each annual and semi-annual period with the SEC on Form N-CSR and is required to be mailed to shareholders. To reduce expense, the Fund mails only one copy of the Fund's Annual and Semi-Annual Reports to those addresses shared by two or more accounts. The Fund's Annual and Semi-Annual Reports, as filed with the SEC on Form N-CSR, are available by contacting the Fund c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, OH 45246 or calling 1-855-747-9555, or the funds website at https://www.advisorspreferred.com/ontrack-core-fund.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the past five years of the Fund's operations. Certain information reflects financial results for a single Investor Class share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information for the Fund has been derived from the financial statements audited by the Fund's Independent Registered Public Accounting Firm, Cohen & Company, Ltd., whose report, along with the Fund's financial statements as of December 31, 2025 are available on the Fund's N-CSR, which is available upon request and is incorporated by reference in the SAI.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout each Year

	Investor Class				
	For the Year Ended December 31,				
	2025	2024	2023	2022	2021
Net asset value, beginning of year	$ 50.77	$ 54.87	$ 52.15	$ 56.12	$ 57.84
Activity from investment operations:					
Net investment income (loss) [a]	1.70	1.72	1.66	(0.13)	0.44
Net realized and unrealized gain (loss) on investments	1.36	(1.75)	1.14	(3.11)	1.83
Total from investment operations	3.06	(0.03)	2.80	(3.24)	2.27
Less distributions from:					
Net investment income	(6.21)	(4.07)	(0.08)	(0.73)	(3.99)
Total distributions	(6.21)	(4.07)	(0.08)	(0.73)	(3.99)
Net asset value, end of year	$ 47.62	$ 50.77	$ 54.87	$ 52.15	$ 56.12
Total return [b]	6.11%	(0.14)%	5.37%	(5.80)%	3.94%
Net assets, at end of year (000s)	$ 18,462	$ 24,445	$ 60,427	$ 109,086	$ 120,552
Ratio of net expenses to average net assets [c]	2.62%	2.61%	2.59%	2.58%	2.58%
Ratio of net investment income (loss) to average net assets [c,d]	3.32%	3.21%	3.21%	(0.23)%	0.73%
Portfolio Turnover Rate	359%	116%	575%	727%	140%

[a] Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the year.

[b] Total return assumes reinvestment of all distributions.

[c] The ratios of expenses to average net assets and net investment income (loss) to average net assets do not reflect the expenses of the underlying investment companies in which the Fund invests.

[d] Recognition of net investment income (loss) by the Fund is affected by the timing and declaration of dividends by the underlying investment companies in which the Fund invests.

PRIVACY NOTICE

Rev. May 2014

FACTS **WHAT DOES ADVISORS PREFERRED TRUST DO WITH YOUR PERSONAL INFORMATION?**

Why? Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What? The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number
- Assets
- Retirement Assets
- Transaction History
- Checking Account Information
- Purchase History
- Account Balances
- Account Transactions
- Wire Transfer Instructions

When you are *no longer* our customer, we continue to share your information as described in this notice.

How? All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Advisors Preferred Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Advisors Preferred Trust share?	Can you limit this sharing?
For our everyday business purposes – such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes – to offer our products and services to you	No	We don't share
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes – information about your transactions and experiences	No	We don't share
For our affiliates' everyday business purposes – information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share

Who we are	
Who is providing this notice?	Advisors Preferred Trust
What we do	
How does Advisors Preferred Trust protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings. Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.
How does Advisors Preferred Trust collect my personal information?	We collect your personal information, for example, when you ▪ Open an account ▪ Provide account information ▪ Give us your contact information ▪ Make deposits or withdrawals from your account ▪ Make a wire transfer ▪ Tell us where to send the money ▪ Tells us who receives the money ▪ Show your government-issued ID ▪ Show your driver's license We also collect your personal information from other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only ▪ Sharing for affiliates' everyday business purposes – information about your creditworthiness ▪ Affiliates from using your information to market to you ▪ Sharing for nonaffiliates to market to you State laws and individual companies may give you additional rights to limit sharing.
Definitions	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. ▪ *Advisors Preferred Trust does not share with our affiliates.*
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. ▪ *Advisors Preferred Trust does not share with nonaffiliates so they can market to you.*
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. ▪ *Advisors Preferred Trust doesn't jointly market.*
